- Some variances due to increase in special ed students, bonuses, and supplies

Annie shared highlights from the recently completed audit:

- The audit was completed with no findings.
- One major variance from FY 24 audit to FY 25 audit is attributed to the absence of Esser funds which were last given in FY 24.
- Expenses were mostly aligned between FY 24 and FY 25.

The Board unanimously approved the audit and financial statements. The motion was led by Shauna and seconded by Dan.

The Board took a few minutes to complete their statements of financial interest.

CEO Report (Kristi)

A potential new Board member named Bryan McAllister has met with Kristi and will be sending his resume for Board review. Kristi shares that Bryan is a pastor and an airforce veteran who has also worked for an organization supporting young people through court hearings. He understands the work of development through his work as a minister.

WCS will be starting two new food initiatives:

- Freddie and Friends is a program providing schools with a freezer and free heat-and-eat fully cooked meals for families.
- A farm stand will start providing free fresh produce to families twice a week at dismissal.

Per the strategic plan, WCS just completed an environmental audit. The audit contained many positive findings and some areas for improvement:

- Certain scents and smells such plug-ins may be triggers for asthma.
- Fur-bearing animals in Fernhill's discovery classroom may be an asthma trigger, even for students who are not allergic.
- Idling cars and buses contribute additional pollutants.

Kristi shared about some recent visits with friends of the school.

Kristi reviewed some potential expenses around building maintenance. There is an ongoing issue with siding at Awbury and with falling discs and ceiling panels at Fernhill.

Kristi shared about the challenge of teacher certification:

- Under Title I regulations, if fewer than 75% of lead teachers are certified, a school must notify the families of students taught by uncertified teachers. WCS is currently below the 75% certification threshold and has sent the required notifications. No families have contacted the school with questions.

- The ongoing teacher shortage continues to be a challenge. Last year, WCS revised its salary scale to provide an additional \$2,000 to teachers who are certified in their grade level or content area. WCS also plans to assess the certification needs of all uncertified teachers and support them in obtaining certification. Current supports include a small tuition-reimbursement grant and coverage of all required testing fees.

Board Meeting adjourned at 7:44 PM.

A motion to adjourn was led by Michelle and seconded by Dan. The motion was passed unanimously.
